## Getting Started with Integral

**No HDMI 2.0? No HDCP 2.2 input on your 4K UHD display? No Problem!**

**Play HDCP2.2 protected content such as movies, games, satellite/cable, and internet videos on any TV/UHDTV/Projector or Monitor!**
Integral allows you to view HDCP 2.2 content from your Sony 4K media player, your Shield game console, your graphics cards, your Blu-ray player, satellite/cable or via Netflix or internet sources on all standard 50/60Hz or 100/120Hz HDMI or DVI-D displays without HDCP2.2 compliant input!

If your TV, monitor or projector cannot play HDCP 2.2 content because it lacks of a HDCP 2.2 compliant input, HDfury Integral will solve your issue!

Upgrade to Perfect HDCP2.2 for a fraction of the cost of buying a new display!

The HDfury Integral supports every HDMI signal and HDCP revision type in existence today from SD to Full HD and up to 4K60 4:4:4 600MHz. It is firmware upgradable so that new features can be added in the future as needed!

**How difficult is it to set up?**

A few switchs on the HDfury Integral can be set once depending on the HDCP revision requiered by your TV. No other setup is required.
For more information download the User Manual from the Download Tab above.

Just connect the HDfury Integral between the source and the TV/projector. That's it!

**Which projectors and TVs are supported?**

Any standard 50/60Hz or 100/120Hz HDMI or DVI-D displays will work with HDfury Integral.

HDfury Integral is the world first solution that work with any HDCP revision sources and any HDCP revision displays, no matter if your display is HDCP 1.4 and your source is HDCP 2.2. Thanx to our embedded unique HDCP Doctor feature, you will be able to display any HDCP revision sources on any HDCP revision displays. ALWAYS & GUARANTEED!
